Assignments:

The details of the various assignments that I have handle darelsted here, in chronological order.

HCL Technologies

Senior Specialist in Cloud Infrastructure

Oct 2021 - Apr 2023

Madurai

- Managed and troubleshot Nutanix ESXi issues related to storage, network, and performance.
- Executed AOS and Nutanix VMware ESXi patch upgrades, alongside vCenter and ESXi firmware upgrades.
- Maintained and upgraded VMware ESXi servers and virtual sessions, addressing complex server issues.
- Performed VM backups, snapshots, cloning, and managed VMWare Guests, Templates, P2V conversions, Capacity Planner, VMotion, and DRS.
- Resolved hardware and operating system-related issues.
- Utilized VMware standalone converter for P2V and V2V conversions.
- Managed VM Import/Export operations to enhance disaster recovery strategies.

Computer Age Management Service Ltd

Sr Systems Engineer

Nov 2007 - Aug 2021

Coimbatore

- Installed, configured, and deployed VMware products including Workstation, Converter, and View in virtual environments.
- Managed the installation, configuration, and deployment of Microsoft Windows servers.
- Created and managed users, groups, and Group Policy Objects (GPOs) within Active Directory.
- Configured, installed, repaired, and troubleshot hardware performance issues on servers, SAN equipment, and network equipment in a data center environment.
- Oversaw Asset and Infrastructure Change Management processes across all Data Centers.
- Maintained comprehensive documentation, inventory sheets, technical schematics, and diagrams.
- Generated tickets within the ticketing system to address hardware problems, incidents, and changes.
- Managed servers through regular and proactive monitoring, responding to alerts, and performing duties.
- Utilized vCenter Server for centralized management of all ESXi hosts within the datacenter.
- Configured and deployed antivirus tools and Windows security patches across datacenter servers.

INDNET(A service providing company)

Systems Engineer

Nov 2006 - Oct 2007

Coimbatore

- Installed and configured Symantec Antivirus.
- Managed user account locking/unlocking in smbldap.
- Installed Enterprise Edition 4 and Fedora 5.0.
- Arranged prompt repairs for hardware failures.
- Performed installation of Virtual Machines on VMware ESXi 5.0.
- Installed Physical Linux machines using various methods.
- Managed user, computer, and group accounts on Linux servers.
- Installed, configured, and administered DNS and DHCP servers on both Windows and Linux.

HCL INFOSYSTEM PVT .LTD

Service Engineer

Oct 2005 - Sep 2006

Coimbatore

- Installed and configured Windows XP, Windows 98, and Red Hat Linux servers.
- Troubleshot network problems, including LAN and WAN networks, on Red Hat Linux EL 4.0.
- Managed user, computer, and group accounts on Linux servers.
- Implemented and managed NIS and NFS servers on Linux.
- Implemented Squid and Mail servers on Linux.
- Administered Norton Antivirus corporate server.
- Installed and configured user policies in Windows 2000.
- Maintained backups on Windows and Linux servers.
- Implemented and managed disk quotas on both Windows and Linux platforms.
- Performed service and troubleshooting of minor problems on CRT monitors.
- Installed, configured, and administered FTP and Samba servers on Red Hat.

- Ensured escalation of critical cases or highly complex situations to senior staff for quick resolution.
- Logged all required service data for tracking purposes.
- Installed and updated software, removed packages, and managed repositories.
- Configured IP addresses, troubleshot network issues, and configured hostnames.

Confident IT solutions

Service Engineer

Jul 2004 - Sep 2005

Coimbatore

- Installed and troubleshot Windows 2000, 2003, Windows 98, NT, Server, and XP.
- Installed and troubleshot network problems, including LAN and WAN networks, on Red Hat Linux EL 4.0.
- Designed and connected computers using TCP/IP and various required protocols via UTP and BNC cables through hubs and switches.
- Administered Windows 98/2000/Linux operating systems, software installations, and troubleshooting.
- Installed, configured, and maintained client machines, software, and operating systems.
- Configured and maintained Windows multi-boot systems.
- Maintained Symantec Ghost Cast Server for loading and dumping Windows platform operating system images.
- Provided support and troubleshooting for applications such as Microsoft Packages and Visual Studio .NET.
- Maintained a virus-free network with Symantec Norton.
- Repaired and replaced internal and external components, including server motherboards, processors, memory, video cards, modems, NICs, sound cards, and IDE/SCSI hard drives.
